UNITED WORLD OF DIVERSITY

Two frames in one

Nanovista NANO frames can be adapted to all uses with temples or switched to be worn as a headband:
From a quiet class room to a rugged playground. They will take the beating day after day!!

NANO CustomFit

NANO
VISTA 

nANO CustomFit

Greater depth of bridge and downward displacement in the nasal area adapted to support special physiognomies.

Rubber bridge adjustable and adaptable to different widths and depths of noses.
Internal metal structure fixed to the frame via double injection.

Greater depth of the bridges in the nasal support area to ensure a greater distance between the eyes and the frames.

QIAO SYSTEM BRIDGE

Built-in invisible plastic structure with a silicon base jacket allows for adjustability without any metal parts.

QIAO SYSTEM BRIDGE does not have any metallic part either in its structure or in its fixation to the frame. **QIAO SYSTEM BRIDGE** is removable and can be replaced by bridges of different sizes depending on models.

Longer head band

Longer temples
