

NANO crystal

INTERSTELLAR LIGHTNESS PURE TRANSPARENCY STYLE THAT SHINES

Welcome to the Nano Crystal universe!

A new collection where ultra-light design and pure transparency come together with the most radiant and delicate colors. Inspired by planets and galaxies, each model is named after a celestial body because... these glasses are from another orbit!

Nano Crystal embraces a super slim look, with sleek and modern profiles that let the light through and grab attention.

A play of transparency and soft hues makes each frame look (and feel) like a burst of freshness and ultralight style.

SUBTLE TECHNOLOGY, TOTAL COMFORT

Nano Crystal is made from next-generation **bio-based TR material** that incorporates renewable plant-based components: lightweight, flexible, and ultra-transparent. A perfect balance between aesthetics and functionality.

DESIGNED BY AND FOR OPTICIANS

All models include demo lenses with millimeter markings to facilitate pupillary distance and height measurements.

nano crystal

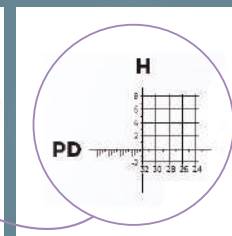

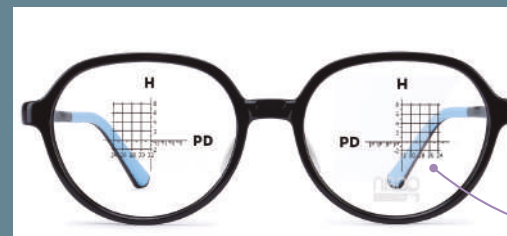

DESIGN THAT ADAPTS TO EVERYTHING

- • • >> Ultra-light fronts and updated shapes
- • • >> Super thin temples with bicolor ends

- • • >> Adjustable nose pads for a perfect fit
