

NANOSOL

NANO chameleon Vol. II

NANO CHAMELEON - VOLUMEN II IS HERE!

A-M-A-Z-I-N-G!

Yes, that's still the word everyone uses the moment a child puts on their **Nano Chameleon** glasses. But now... get ready for a whole new level of surprise.

The new **Nano Chameleon Volume II** sunglasses don't just change color like a real chameleon. When exposed to sunlight, they also **reveal incredible patterns and prints**, appearing before their eyes like pure magic. A stunning visual effect that turns every outdoor moment into a unique experience.

How is this possible? Thanks to the combination of our innovative material and **photochromic pigments**, the frames react to the intensity of sunlight, **transforming from their original color — grey, blue, pink or purple — into surprising hidden designs such as stripes or camouflage-style patterns, activated only by sunlight.**

Magic? No. **It's NANOVISTA science.**

But wait, there's more. Protecting children's eyes from **UVB / UVA rays** during childhood is just as important as protecting their skin... and not all sunglasses are the same.

Like all our **NANO SOL** sunglasses, the **CHAMELEON** collection is a true **SUN PROTECTION** solution: **Category 3 polarized lenses**, filtering light and reducing glare.

Nano Chameleon Volume II

More surprise.

More fun.

And the sun protection they need every day.

FOLD, STORE, AND UNFOLD STYLE!

Attention, little adventurers and big explorers! The new foldable sunglasses from NanoVista is here to revolutionize summer (and any season).

What makes them special? Everything!

- **Compact and practical:** They fold so easily that they fit in your pocket, backpack, or bag. Always ready for action!
- **Durable and lightweight:** Made from TR-90, a material so flexible it can handle anything, and so light you'll almost forget you're wearing them.
- **Ultra-modern:** Frames with a gradient effect and soft-touch finish. Because style matters!
- **Maximum protection:** Polarized grey lenses that shield their eyes like a sun-proof barrier.

These sunglasses aren't just worn, they're lived! Because we know today's kids need style, comfort, and an extra touch of practicality.

NanoVista: where protection meets style... and fun!

VICTORIA

TREND ALERT!

Bye, bye to following the rules...hello to make a difference!

“Screen-type” sunglasses have become the “MUST” of this season. Singers, athletes, **tiktokers** or **youtubers** have joined this trend.

NanoVista presents VICTORIA, our most innovative model. A unique design for boys, girls and teenagers who are looking for a **point of transgression** in their **look**.

Also, thanks to their impeccable fit and maximum protection, VICTORIA glasses are perfect for **outdoor sports**: running, cycling, skiing, skating...

VICTORIA lenses have a mirrored treatment of the highest quality, which guarantees uniform colors across the screen.

The double-injected temples with contrasting rubber details are the unbeatable finishing touch. VICTORIA is designed in two calibers, to perfectly adapt to ages between 4 and 12 years.

Choose Victoria and make your difference!

Baby

ERGONOMIC DESIGN.

Babies look up in most situations. For this reason, we have developed the innovative “angle-light-cover”. A thin protective spoiler that fits perfectly to the part top of the eyes, blocking sunlight from all sides angles.

THE HIGH QUALITY LENSES THAT OUR BABIES NEED.

Lenses prepared to offer optimal protection:

- **Blue Block Lenses:** Protect from harmful sun rays. Blue Light, reducing the risk of suffering from diseases eye problems in the future (DMAE).
- **Polarized lenses:** Protection against glare.
- **Photochromic lenses:** They offer a change in intensity adaptive to ambient light, a technology never seen before baby sunglasses.
