

NANO GLOW

Indestructible **FRAMES**
THAT glow **IN THE DARK**

NANOGLLOW

#indestructible

Manufactured with **Siliflex™**, a patented material of maximum strength and flexibility that makes the frames unbreakable and 35% lighter than acetate glasses.

EMOTIONAL SAFETY

Fluorescent colors allow kids to find their glasses in the dark easily and quickly.

ROAD SAFETY

The glasses become a protective element in low visibility conditions, allowing children to be seen better in the dark.

NANOGLOW 3.0

Glow in the dark!

NANOGlow is back, the **INDESTRUCTIBLE** glasses for children that glow in the dark. Ultra resistant, super flexible, lightweight and hypoallergenic. And now with more GLOW and lots of FLOW!

Kids love them! Try them out at the optical store and surprise them. But first recharge them in the sun.

Thanks to the fluorescent glow on the temples, these frames allow children to feel safe at night, they will easily find their glasses if they wake up in the middle of the night and increase their safety by preventing accidents. The illumination gives great visibility while wearing NANOGlow **and are a blast!**

COLD GLAZING

BRIGHTER THAN EVER!

Ultra-thin temples MONOBLOCK

NANO GLOW introduces the new **META**, **LOOT** and **BYTE** models featuring the innovative **MONOBLOCK** ultra-thin straight temples, a new generation of design that combines innovation, lightweight performance and comfort.

Their integrated one-piece construction, with the hinge and temple fused into a single component, creates clean, continuous lines and a sleek profile that reinforces the collection's technological character.

Manufactured using Siliflex™ + Siliflex™ + rubber triple-injection technology, **MONOBLOCK** temples deliver the perfect combination of flexibility, durability and adaptability for children's everyday wear.

The ultra-thin **MONOBLOCK** design enhances comfort throughout all daily activities.

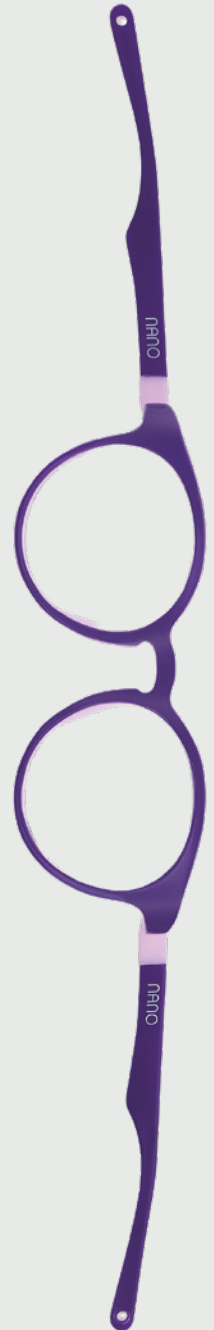

The integrated metal core in the temple tip provides the adjustability needed to achieve a precise, personalized fit.

Technology and design come together in **NANO GLOW** to create a new generation of eyewear with an
